The city council is still in continuous session with only the five "Mormon" pembers present, they have been unable to get either of the three counomen, Jones, Powers or Brown, who art in Salt Lake, to come back to the ay. The councilmen at home are demmined to stick it out and to hold ses-gen indefinitely until they can get some se of those absenting themselves from he neetings to be present, and just as look as a session can be held with a gen as a session can be held with a gerum present some appointments will be made, and one of them is D. HEALTH OF MRS. CHOULES IM-

PROVING. Recently a "News" representative visited the stricken George Choules' family, and was pleased to find Mrs. Choules much stronger than she was, although she is still in a very delicate condition, her heart being affected so that the least excitement will almost invariably throw her into a dead faint. However, she is not nearly so subject to spells as she was soon after her

husband's tragic death.

A few days after Mr. Choules' death a package was received from Mr. and Mrs. W. A. Williams, a son-in-law and daughter of the deceased, who are la-boring in Honolulu as missionaries, in which was found a baten, tipped with a walrus tooth and the initials "G. C." engraved thereon, being designed as a present for Mr. Choules. Mrs. Choules also received a curious souvenir in the shape of a small basket made of brown seeds, somewhat larger than apple seeds, sewn together and nicely inter-twined with ribbons. The present was by a native artificer in fancy

EMERY.

Another Outbreak of "Smallpox"-Contracted at a "Candy-Pulling."

Special Correspondence. Emery, Emery Co., Feb. 7.-Smallpox has again broke out in our little town. On the evening of the 19th of January a party of young people gathered at a certain house to have a "candy-pull," where at the same time some of the little children were sick with what was supposed to be chicken-pox, but from which thirteen young people took the infection, and are now down with what is declared to be the smallpox, and several more have been exposed. All are isolated to two or three houses, and strictly quarantined, and we hope to have it corralled again.

While the affliction is of the usual mild type it is a great calamity to our thritfy little burg, as schools and public gatherings have been suspended since Decembzer 1st. We have had since that time forty-five cases, though only one case proved fatal, that of Henry Keel, and we are hopeful that that may be the last one.

OPPOSE VACCINATION. The majority of the people here are opposed to vaccination, and we say hall to the Anti-vaccination league.

Let us have branches in all the cities and towns of the State, and prepare for the fight in the next Legislature.

HUNTINGTON.

Important Educational and Social Matters Considered. Special Correspondence.

Huntington, Emery County, Feb. 8.—
At a general Stake Priesthood meeting held at Huntington today, the condition of the Stake academy was the principal item of business before the meeting. The report made by Prof. Cluft of the ac demy showed a very good beginning had been made, and also the means required to place the academy on a high school basis. It was decided that to pay up a few debts make a few finishing touches to the building and buy the necessary apparatus to place the school in a good condition it would take about \$1,200 and it was decided to apportion this among the wards of the Stake as follows: Castle Dale, \$200; Cleveland, \$150; Ferron, \$155; Molen, \$50; Huntington, \$136; Lawrence, \$40; Orangeville, \$150; Price, \$125; Spring Glen, \$45; Wellington, \$65. President Miller said he would hold the Bishops, their counselors and the authorities of the Sunday schools of each ward responsible for the amount. It was also decided that some responsible man should be appointed to take charge of dances held in the wards, and that dances should commence at 8 p. m. and dismiss not later than 12 p. m.; that round dances should be curtailed as much as possible, and that cake walks and basket dances should be stopped entirely. Also that parents and teachers should take up a labor with the young, and everybody else, to put down profanity, as it was altogether too prevalent. In the evening the High Council met and talked over matters

for the welfare of the Stake.

The heavy storm that raged around Salt Lake on Tuesday night did not reach Castle Valley, although we had a very cold wind on Wednesday, but no rain or snow, and the prospects for water for irrigation the coming summer is yet very slim. The health of the people here is very good.
